Dan

I contacted Kristine and got info on locating any info on the 104(e) for "Glacier NW/CalPortland as per your request. I only found a few documents under Glacier NW that I am forwarding via this email. I'm not sure that this is what you're looking for but it's all that came up in our system. Please let me know if you have any other names to search for info under than those provided in your email below.

THANKS!

Rich

Rich –

Is there an easy way to get a copy of the Glacier NW/CalPortland 104(e) submittal for the namesake Portland Harbor RM 11E site? There apparently is historical information on the former Albina Engine Works operation at the site that would be worth reviewing before starting to work on a source control decision for the site.

Thanks.
